ACCOMMODATION Tented Safari Camp

This is a real wilderness adventure, with the camps built in the most beautiful surroundings, often next to a river where you can sit and watch the animal life. Every year camps are set up in areas, depending on the season, where many buffalo are present. The camp consists of 4-5 large tents each of which can house 2 camp beds. It is easy to stand upright in the tents, and there are no small tents that would be uncomfortable for 2 people. It is of course possible to request that hunters have a tent to themselves, if the group is not too large. All meals are served in the open air. There are tables and chairs set up next to the camp kitchen, which is set up as an extension of the tents. Surprisingly good, well prepared and drinks are served in camp. It must be said the camps are rather remote, with no town or even other people within a radius of many kilometers. First aid treatment is available in camp, but if anything more acute occurs, there is a small medical post in Bulman, which is a 1-2 hour drive from the hunting camp.

to explore the area's rich wildlife. Often the camps are pitched on the banks of a river, from where you can sit and watch the animal life.

It is absolutely possible to bring along your family, but it is important that they are "nature-lovers" as most of the camps are far from towns and other attractions, but they do offer the chance

PARTNER Australian Buffalo Hunters

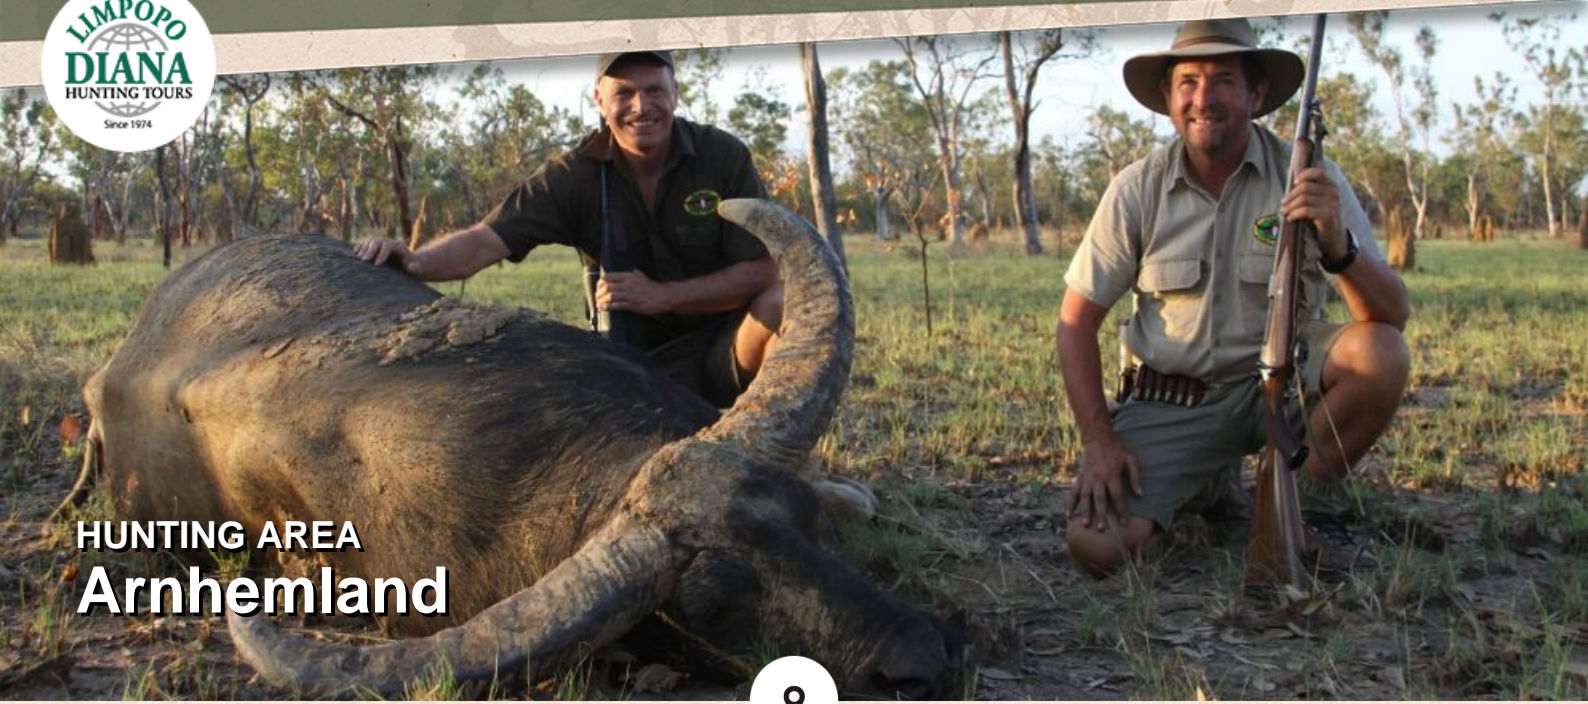

Our partners here are Australian Buffalo Hunters, who are owned by Graham Williams. He has hunted and arranged hunting in Arnhemland since the late 90's which makes Australian Buffalo Hunters one of the very biggest names in the business when it comes to hunting water buffalo.

In the hunting district their focus is very much on game management, which over the years has helped secure hunters here some very large trophies indeed. Our outfitter Graham Williams works in close partnership with the local population here in Arnhemland, namely the Aborigines. The animal populations are assessed every year, allowing them to decide how many buffalo can be shot in the coming year. This helps to ensure the size and the quality of the buffalo population remain at an optimal level.

The hunting camps are also moved on a year to year basis, to make sure that the hunting and its effect on the animal life is kept as even as possible.

QUESTIONS?

HUNTING AREA Arnhemland

Arnhemland, where the hunt takes place, covers 100,000 km², which is more than twice the size of Denmark. It is possible to choose between 2 modes of transport to get to the hunting district. The most comfortable is clearly chartering an aircraft to fly from Darwin to Bulman, an aboriginal town in the heart of Arnhemland. The flight takes 1.5 hours, and is followed by a car journey of around 1-2 hours out to the hunting camp. The second alternative is to drive by car the whole way to the hunting district. This takes around 10-12 hours, and makes for a very exciting journey, during which you can enjoy experiencing both the town of Katherine and the changing countryside along the way. Many hours are spent driving along gravel roads. To fit in with the planned arrivals and departures from the hunting camp, the outfitter decides which of the transport alternatives will be planned for.

hair stand on end.

It is possible to bring your own rifle or hire one in the district. We recommend hiring a rifle here, as both the rifles and sights they have available are of very high quality. In addition to traditional rifle hunts, Australian Buffalo Hunters can also offer incredibly exciting bow hunting - an experience that will really make your

About us

i

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
